

COVINGTON LATIN SCHOOL

Achieve here. Excel here. Belong here.

Dear potential Covington Latin students and parent(s),

Covington Latin School offers enrichment programs in Pre-Algebra and Language Arts for interested students. The courses are designed for students in the 5th, 6th, or 7th grade who have taken our entrance exam (or in preparation for the entrance exam) or have been admitted but feel they may be well-served with some additional preparation, whether coming in as a 7th, 8th, or 9th grader. Many of our students (and their parents) have found value in the program and felt that it aided them refreshment exercises in not only Math and Language Arts, but also study skills areas.

This is not only a good opportunity to determine your child's potential (a written evaluation will be given out at the end), but also a chance for your child to meet future classmates and become familiar with the school. So although your child might be strong in the following areas, it will give them a glimpse of the homework to come and get acquainted with CLS. You do not have to be enrolled to attend CLS to take this course. You may use this course to determine if your child is ready to advance to CLS. The evaluation on your child's work in the class will be sent within 2 weeks after the final test in the class.

Although no grade or credit will be given for these courses, the program will require a serious commitment on the part of each student. A total of 21 classroom hours should be complemented with an equal amount of work outside the classroom. A student may take both courses. The cost for one course is \$150.00, which includes the use of our textbooks. Below is more information on the program and what is being taught. I hope you strongly consider sending your child, since it can only help them to have these skills reinforced. I also do notebook checks and teach study skills through the courses.

English summer enrichment will cover:

- diagrams
- writing a 5 paragraph essay and thesis
- reading novels
- sentence parts/structure
- Grammar and parts of speech

Pre-Algebra enrichment will cover:

- decimal/fraction percentage conversions
- addition, subtraction, multiplication and division of whole numbers, fractions, and decimals
- sales/tax word problems
- Area/perimeter

To sign up: please complete form on reverse side and submit with \$150 check per course payable to Covington Latin

As I teach the class currently and have since 2003, please contact me if I may answer any questions or provide additional assistance with your transition to Covington Latin School.

Sincerely,

Ms. Stephanie Tewes
