

COVINGTON LATIN SCHOOL

Availability of Asbestos Hazard Emergency Response Act (AHERA) Asbestos Management Plans

Dear Parents, Teachers, and Staff:

In accordance with regulations of the Environmental Protection Agency (EPA) and the Kentucky Energy and Environment Cabinet (EEC), we are required to notify parents, teachers and other employees each year of the availability of the Asbestos Management Plan (Management Plan) and the response actions we are taking to maintain asbestos containing materials in our school.

An updated Management Plan has been prepared for Covington Latin School to ensure the proper maintenance and responses for asbestos-containing materials or suspect asbestos-containing materials. Appropriate response actions have been and will be taken to ensure the asbestos is maintained in good condition.

A periodic surveillance of our school has occurred every six months since the original inspection. Additionally, formal re-inspections were completed every three years after the original inspection. Copies of these reports are on file in the front office.

Custodians and maintenance workers have been instructed on the health effects of asbestos and the importance of maintaining this material in good condition during their normal day-to-day activities.

No asbestos abatement activities are scheduled at this time.

If you wish to review the Management Plan, a copy is located in the school office.

Sincerely,

A handwritten signature in black ink that reads "Randy Dennis".

Randy Dennis
Head of School
